PROFILE

Innovative full-stack developer with 5 years of experience building and maintaining enterprise applications with React, React Native, and Node.js. Also has extensive knowledge in other front-end libraries such as Material UI, Bootstrap, Formik, etc., and is able to work with cross-functional teams across the organization.

EMPLOYMENT HISTORY

Senior Software Engineer, Perfectz Digital
Bengaluru
Jan 2023 — Present

- Collaborated closely with team members to identify and resolve complex issues, fostering a cooperative and supportive work environment.
- Provided mentorship and guidance to junior developers, helping them troubleshoot and fix issues, and promoting continuous learning and professional growth.
- Actively participated in team meetings and brainstorming sessions, contributing innovative ideas and solutions to enhance product features and functionality.
- Demonstrated exceptional problem-solving skills and a proactive approach to tackling challenges, ensuring timely delivery of high-quality software solutions.
- Spearheaded the development and maintenance of the product management module using NestJS, MongoDB, and PostgreSQL, ensuring seamless integration and functionality.

Senior Software Engineer, Techversant Infotech
Trivandrum
Dec 2019 — Dec 2022

- Collaborated with a cross-functional team to develop a web application similar to Figma using React and Konva JS, delivering a high-quality user interface for design collaboration.
- Implemented real-time collaboration features on the canvas using Socket.io, enhancing team productivity and user experience.
- Effectively coded software changes and alterations based on detailed design specifications, ensuring accuracy and adherence to project requirements.
- Worked closely with the Product Team to understand and translate requirements and business specifications related to Portfolio Management, Analytics, and Risk into functional application features.
- Implemented and updated application modules under the direction of Senior Software Developers, contributing to the overall project success and timely delivery of updates.
- Demonstrated strong teamwork and communication skills, fostering a collaborative and efficient work environment.
- Actively participated in code reviews and project planning sessions, contributing to the continuous improvement of development processes and best practices.

Full Stack Developer, Adroitminds Software Labs   Trivandrum

Jan 2019 — Dec 2019

- Responsible for developing React Native app on iOS/android.
- Integrating unit and e2e testing on legacy web apps.
- Followed policies and procedures related to application methods and quality standards at all times.
- Helped to achieve a consistent look and visual theme across the website by promoting uniform fonts, formatting, images, and layout.
- Interfaced with clients to identify business requirements.

Frontend developer, Cybmirror Innovations   Kollam

Nov 2017 — Dec 2018

- Responsible for developing a React Native app with google maps services.
- Successfully identified, diagnosed, and fixed website problems, including broken links, typographical errors, and formatting issues.
- Brought forth a passion and dedication to software development.
- Worked on internal and external projects with great care.
